unpaid loan of \$100,000 to Albert P. Fall.

News of the speech delivered by Mr. Vanderlip last night at Ossining, N. Y., asking for investigation of the source of the \$500,000 which he paid to Mr. Harding for the Star, has been widely travelled like wildfire through the Senate cloak rooms and throughout official Washington.

There were hurried conferences between Chairman Lenroot and other members of the oil committee with an apparently unanimous agreement that Mr. Vanderlip should be summoned immediately.

SUSPICION WIDESPREAD

On all sides it was agreed that the publication of such a grave charge as that it was more explosive than ever that the oil investigation should be pursued to the fullest possible limit irrespective of where it might lead. Some Senators pointed out that the scandal had not come so widespread that no one could consider himself immune from it, making it essential to believe that the correspondence in Schuyler's possession was "sensational."

Revolting that some of the rumors have revolved about Senators without undertaking to name them, one Senator declared that it was the duty of the Senate to sift all of the charges and rumors to the very bottom.

It was scarcely an hour after the utterances of Mr. Vanderlip had been confirmed before Chairman Lenroot had affixed his signature to a subpoena for the New York hearing. And the next morning, of former service Senator Lenroot had the Senate sergeant-at-arms communicate by telephone with Mr. Vanderlip, who expressed his readiness to appear before the committee to answer his questions.

The New York financier will be questioned not only with reference to his role in the case of the Marion Star, but also about his charge that the oil committee did not go further in investigating Fall because the former Secretary was ready to "sell" the oil world—had "old" world have gone into "high places."

JUST GOSSIP, SAYS BANKER

(Continued from First Page)

anything directly connected with the duty of the President. I have no objection to that," he said.

In the course of his hearings before the Rotarians at the Ossining dinner, Mr. Vanderlip was quoted as saying that the press did not receive the reports of the Senate's investigation.

An effort was made to have him elaborate that statement, and to give specific information.

"I did not say," he explained,

"that the press did not print

the things I said, but what the press knew had not

printed. You can draw any inference you want to draw from that."

WHAT MOORE SAYS

(EXCLUSIVE DISPATCH)

MARION (O.) Feb. 13.—Refuting in its entirety Frank A. Vanderlip's charge that the Star was not a reliable source of information, Senator Moore, one of the two chief owners of the paper and the general manager, just before his departure for Cleveland today issued a brief statement which he carried on the first page of the Star tonight.

Moore's statement follows:

"I hesitate to dignify Mr. Vanderlip's Ossining speech which apparently was to implicate the sale of the Marion Star to the Teapot Dome scandal with a denial. If

Mr. Vanderlip were a newspaper man he would edit his copy and copy his facts more carefully. If the Teapot bunch could have convinced him that the price of the Star for \$500,000, which was the price paid for it, they would

have found it a very good bargain.

The controlling interest in the Star was held by Mr. Louis H. Brush and myself as individuals.

The Harding estate still holding a large stock interest in the company. We regard it as worth all we paid for it which figure, incidentally, is the same as the price paid for Mr. Vanderlip's investigation.

Had Mr. Vanderlip taken the trouble to consult the Probate Court of Marion county and ascertain the facts he would have known that the Teapot bunch

had been completely discredited.

After making a map of the Teapot Dome, he said the geologist to Washington with it, he told the Geological Survey he would not have any connection with the Teapot Dome scandal.

"That was so strikingly different from Mr. Doheny's testimony that I thought it well to reinforce it," said Senator Walsh, after the witness had repeated his statement several times.

STACK TELLS OF SINCLAIR DEAL

Ain't We Got Fun" is Tune Played by Band at Rites

(BY CABLE—EXCLUSIVE DISPATCH)

PARIS, Feb. 13.—More than 10,000 persons followed a jazz band at the funeral of Jules Tanton, the actor owner of Amiens, yesterday, when the man, who had made a fortune out of vaudeville ditties, was buried to the tune of "Ain't We Got Fun." M. Tanton's will obliged his heirs to fulfill its conditions of a jazz funeral, with a full brass band, although Amiens and the surrounding country were shocked.

the Denver Post, and agreed to \$750,000 more. Karl Schuyler, attorney for Stack, attended the conference for Stack, and emphasized the danger of drainage of Teapot Dome by wells which would cause the land surrounding the navy reservoir, under the action which the Interior Department had taken in 1920 when the rights to operate on the entire reservoir were put up to auction.

"In 1920 it was common talk among the oil men that the reservoir was being drained," he said.

He declared that he had never thought of seeking to obtain a lease to the entire reservoir but was only trying to arrange for the privilege of driving off to prevent drainage of the entire reservoir.

America Eager to Buy Bonds;
British Respond

IN CABLE AND ASSOCIATED PRESS

TOKIO, Feb. 13.—Japanese financiers generally and the press in particular today adopted a pessimistic view over the terms of the reconstruction loans in New York and London, the details of which were announced this morning.

Although the stock market received the news quietly, even exhibiting a slightly rising tendency, most of the financial leaders expressed disappointment. They pointed out that the terms of the loan are most prejudicial to the

economic recovery of Japan inasmuch as private industry, following the plan of the government, will be forced to pay unusually high interest rates.

Bankers consider the cost of the reconstruction loan is much higher than the state of Japanese credit would warrant. They pointed out that the government intended to pay more than 7 per cent for its foreign needs, the outlook for private interests seeking funds abroad is dark.

SHODA OPTIMISTIC

The press is unusually hostile to the government, most of the newspapers deplored the high yield of the loans and stressed the widespread opposition to the necessity of calling on foreign aid in the rebuilding of the devastated areas and cities.

Minister of Finance Shoda, addressing the prefectoral governors' conference, explained the high terms of the loan in the face of Japan's economic problems facing the country. He also declared there was the utmost necessity for self denial in every detail of private life.

In his statement announcing the loans and the terms, Minister Shoda attributed the high terms to the post-bellum state of the war-torn country, and the prevalence in America of further earthquakes in Japan. He pointed out that the terms can be reflected on the nation's credit, since no collateral is offered.

Many of those antagonistic to the loan foresee a reaction against the government, strong business interests lining up with political

CREDIT REFLECTED

Announcement was made today that the Japanese government would call its term 4 1/2 per cent serial issue next October, at par, with interest, and that payment for new bonds allotted might be made with bonds of these issues.

LONDON, Feb. 13.—The Japanese government loan of £25,000,000 at 6 per cent has been fully subscribed, it is announced. The lists closed at noon today.

WIEDFELDT EXPECTED
TO QUIT POST SOON

STEP INDICATED IN PRESS
COMMENT OF INSPIRED

IN CABLE AND ASSOCIATED PRESS

BERLIN, Feb. 13.—An attempt to hold Dr. Wiedfeldt, the German Ambassador to the United States, responsible for the failure to locate half-mast the flag at the embassy building at Washington in respect to the memory of Woodrow Wilson, seems reflected today in the action of the German press.

The Ambassador will retire from the post in Washington on an early date, although it is added that his resolution to do so antedates the flag incident and is in keeping with Dr. Wiedfeldt's desire to return to home and rejoin the Krupp direction.

Dr. W. S. Solf, Ambassador to Japan, who is on his way to Germany on leave of absence, again again to name the possible successor. Dr. Wiedfeldt in the event Wiedfeldt retires.

More than 7,000,000 tons of various kinds of seeds are needed during the planting seasons to supply the farmers of the world.

QUOTES TREATY

In his letter Secretary Hughes quoted Article I of the treaty of 1911 and pointed out that the restrictions of the Johnson bill "would apply to Japan not simply in relation to laborers or other classes falling outside of our treaty, but with respect to those who come directly from the port of entry." He proposed an amendment to the bill to meet this situation and added:

"Persons entitled to enter and remain in the United States for the purposes of trade and commerce are not those against whom immigration restrictions are deemed to be necessary."

Article I, section 22 of the Johnson bill, which excludes aliens "ineligible to citizenship," Mr. Hughes said that this provision, taken with others in the bill "operates to exclude all Japanese."

"This is inconsistent with the provisions of the treaty of 1911 and, with respect to those defined as immigrants who do not come within the treaty, it establishes statutory exclusion," Mr. Hughes declared.

"So far as the latter class is concerned," the letter continued, "the committee's report for the bill states: 'There can be no question that such a statutory exclusion will be deeply resented by the Japanese people. It would be idle to insist that the provision is not aimed at the Japanese.' The practical effect is to single out Japanese immigrants for exclusion. The Japanese are a sensitive people and would only be deeply resentful of a legislative enactment as fixing a stigma upon them."

USELESS TO ARGUE

"It is useless to argue whether or not such a feeling would be justified. It is quite sufficient to say that it would exist. It has already been manifested in the discussions regarding other nations." "There would be a total of only 246 Japanese entitled to enter."

"There would remain, of course," he added, "the nonquotas immigrants, but if it could possibly be regarded that the provisions of section 24 (excluding certain classes from exclusion) would duly enlarge the number admitted, these provisions could be modified without involving a statutory discrimination aimed at the Japanese."

EVOKED PROTESTS

Mr. Hughes also discussed his letter the advisability of basing

forces already in opposition to the present ministry.

WASHINGTON, Feb. 13.—Plans of the Japanese government for borrowing \$150,000,000 in the United States will be supported by American banking interests and investors, the Department of Commerce asserted in a public statement today.

SECURITY AMPLE

Not only will the lending of the money to Japan be directly advantageous to American industry and commerce by enabling the purchase of supplies for forthcoming reconstruction of the ports of Tokio and Yokohama, the statement said, but it will prove of general industrial benefit by strengthening exchange and maintaining Japanese purchasing power in the foreign trade field.

Good security to lenders was said to be guaranteed by the fact that Japanese national wealth was estimated as high as \$49,000,000,000.

NEW YORK, Feb. 13.—Successful sale of the new \$150,000,000 Japanese loan which will be offered publicly on Friday, was indicated today by the flood of inquiries which poured in on bankers from all parts of the country.

Although the stock market received the news quietly, even exhibiting a slightly rising tendency, most of the financial leaders expressed disappointment. They pointed out that the terms of the loan are most prejudicial to the

immigration quota on the 1920 bill, instead of using the 1910 census basis as at present. The 1920 proposal, he said, already had evoked representations from European countries and from Franklin D. Roosevelt, which regards the choice of such a basis as a discrimination against her. He recalled that the State Department had forwarded to the Legation the views expressed by the Italian Ambassador on this point and urged that the committee seek some quota basis "which will be proof against the charge of discrimination."

Mr. Hughes gave his approval to the general plan of the committee to provide for a measure of selections of immigrants abroad which would benefit the country and also pointed out various minor weaknesses he had found in the bill otherwise, proposing additional or changed language in each case to correct the fault.

VICTORY THRILL FELT BY SOVIET

Recognition of Government
Lends Confidence

Norway Latest to Present
Hand of Welcome

Russia Ready to Dictate Own
Terms Now

(BY CABLE AND ASSOCIATED PRESS)
MOSCOW, Feb. 13.—Maxim Litvinoff, Deputy Minister of Foreign Affairs, in connection with the recent action of Great Britain and Italy in recognizing the soviet as a de jure government in Russia, and today's announcement that Norway also had accorded the government full recognition, gave an interview to the newspaper correspondents here in which he outlined the general principle that the soviet government would refuse to sign any commercial treaties with countries prior to their de jure recognition of Russia.

To a direct question as to this statement, he said, "There could be no trade agreement between the United States and Russia unless there was de jure recognition."

"With Great Britain, Italy, Germany, Norway and the border states, we now have an ample field for our economic activities, including raw and import manufacturing materials. Recognition is of much less importance to us. There is not the slightest doubt that other European, and also American, countries, in the near future will throw over their illusions, hopeless expectations and conventionalities. We are nearing general recognition."

According to Litvinoff, countries

MASONIC HOME HIVE FOR BEES

Crack in Great Column
Provides Entrance
for Swarm

(EXCLUSIVE DISPATCH)
TUCSON (Ariz.), Feb. 13.—One of the great hollow columns that supports the front of the handsome Scottish Rite Temple in Tucson has been utilized as a beehive. For at least four years the bees have swarmed around the top of the column, where they enter by means of a crack, and it is believed that an immense store of honey has been accumulated by this time. Dead bees now cover the pavement, showing that the annual destruction of drones is in progress.

"We refuse to consider any preliminary conditions to commercial trade," he said. "We must recognize de jure, then we will discuss matters with them."

"With Great Britain, Italy, Germany, Norway and the border states, we now have an ample field for our economic activities, including raw and import manufacturing materials. TROTZKY IS SUBJECT OF RED RUMORS

Former Soviet Chief Has
Disappeared Since Death
of Nicolai Lenin

(BY CABLE—EXCLUSIVE DISPATCH)
TUCSON (Ariz.), Feb. 13.—Leon Trotsky has become the "flying Dutchman" of Russia. Since the mysterious disappearance of the Communist war lord shortly before Nicolai Lenin's death, the soi-disant newspapers have only mentioned his name once, publishing a short telegram supposedly written from Moscow.

Despite the fact that Trotsky has been re-elected head of the revolutionary soviet, and also a member of the soviet of war and defense of which M. Litvinoff has just been elected president, the place of M. Lenin—everybody arriving in Riga from Moscow to strange reports floating around Russia's capital.

The latest story is that Trotsky never had a home in the caucuses but was exiled to Siberia, where he is now heading a revolution of Siberian military detachments. The soviet legation in Riga denies reports of his return to Moscow, and the whereabouts of Trotsky is a mystery.

A large batch of soviet illustrated weeklies arrived in Riga yesterday. They are filled with pictures of M. Lenin's funeral, but show no Trotsky pictures, while virtually all the other prominent commissars are grouped around the casket in various positions.

Hoover urges Colorado pact

Secretary tells stand on
Arizona project

Discusses feasibility of dam
locations

Los Angeles engineer to
testify Friday

(EXCLUSIVE DISPATCH)
WASHINGTON, Feb. 13.—Secretary Hoover of the Department of Commerce was the principal witness before the Arid Lands Committee of the Senate today on the Swine bill. He discussed the Colorado River pact and said that he hoped that Arizona would ratify the measure now adopted by the six other states, but feared some opposition to it. He favored a dam at Glen Canyon, Black Canyon, rather than Glen Canyon and said that power generated at Glen Canyon, if a dam was built there, could not be transmitted as economically as the swing bill and in his talk before the committee the all-American feature of the canal was not mentioned.

Hoover did not endorse the swing bill and in his talk before the committee the all-American feature of the canal was not mentioned.

MAN UP FOR SHOOTING

Change of venue to be sought
for Armenian Prisoner

(EXCLUSIVE DISPATCH)
FRESNO, Feb. 13.—Nazaret Der Torosian, accused by the grand jury with assault with deadly weapon, is scheduled to go on trial in the Superior Court here today.

Attorneys Douglas A. May and Aram Torosian announced they will demand more time for change of venue of the case, made recent upon the ground of prejudice against the defendant both because he is an Armenian and because of the circumstances involved in the case.

Der Torosian is charged with shooting W. L. Osterhout, Monmouth rancher, when the latter, accompanied with others, called at the Torosian ranch in an effort to secure his signature to a raisin growers' contract.

Locomotive blows up

(BY CABLE—EXCLUSIVE DISPATCH)
AMARILLO (Tex.), Feb. 13.—Two trainmen were killed when a Santa Fe Railroad passenger engine exploded near Lubbock, Tex., yesterday. In the blast, E. R. Foster, conductor of the train, was killed an hour later when run over by a special train en route to the scene of the wreck.

The trainman ran into an effort to secure his signature to a raisin growers' contract.

THE GUL-BRAN-SEN!

THE "ACME" OF PIANO EVOLUTION

COMPLETE IN THREE
WAYS!

—a piano

—a registering piano

—a reproducing piano

ALL IN ONE

First: Being all closed up, it looks like and plays like a "regular" piano.

Second: By unfolding the pedals and inserting a music roll, a Registering piano that registers your exact touch on the keys, accenting at will, melody and harmony notes as though you had studied music for years. In this way you can play any song roll, either as a piano solo or as an accompaniment, only. And in any key to suit any voice.

Third: In addition to all those features, you may simply press a button, which converts this wonderful instrument into a Reproducing piano. Then you may sit back and listen to the perfect rendition of any piece you like, played as the artist played it.

With this marvelous Gul-BRAN-sen, the WHOLE WORLD OF PIANO MUSIC IS YOURS—either with YOU as the artist or YOU as the AUDIENCE.

COME HEAR IT. IT'S DIFFERENT.

Martin Music Co.

Bodice to Rock Coolidge

Now Total Almost 100 in
Northern California

(EXCLUSIVE DISPATCH)
SAN FRANCISCO, Feb. 13.—Reports received at headquarters in this city of the League of Coolidge Republican Clubs of California show to date an enrollment of almost 100 major Coolidge clubs actively functioning throughout Northern California. Of these, there are Congressional district clubs in the First, Sixth and Seventh districts, with headquarters at Santa Rosa, Oakland and Fresno.

Fourteen county organizations are represented by the following districts: Alameda, Contra Costa, Marin, Kern, Kings, Madera, Merced, Humboldt, Monterey, Nevada, San Joaquin, Santa Clara, Stanislaus, Tulare, Yolo.

A complete list of clubs, including local organizations, follows:

Congressional—First District: Walter D. Price, president; John E. Baker, vice-president; Second District: Senator Thomas C. West, president; Charles C. Joyce, secretary. Seventh District: H. E. Knapp, president; Franklin Lowmyer, vice-president. County—Calaveras: Victor Wilda, president; C. W. Getchell, vice-president; headquarters, Valley Springs. Contra Costa: J. E. Baker, president; C. G. Hornsby, secretary; headquarters, Martinez. Humboldt: S. S. Mitchell, president; Fred J. Moore, secretary; headquarters, Eureka. Kern: W. C. Cooley, president; Mrs. Charles A. Graduation and Ineligibility Play Havoc With Los Angeles High Athletes

ROMANS WEAK ON CINDERPATH

Graduation and Ineligibility Spoil L. A. High's Team

Sprints and 880 Well Taken Care of This Year

Weights and Distances Lack Capable Athletes

Prospects for a brilliant track team are very slim at L. A. High this year, graduation and ineligibility having done their dirty work and generally ruined Coach Harry Kirkpatrick's cinder-packets.

The sprints have four or five fairly good men. Pete Mazzetti, last year's track captain, is back, and has sprinted around 10.3 already. Bert Darling, also a member of last year's squad, has clicked off the 100 in 10.1, and is the only one of the three L. A. High sprinters to have done this. Tommies still step the century and furlong in more or less fast time.

The quarter-mile is in 10.5 in good men. Barrett and Fisher are the only ones left. Fisher has not shown up well thus far. The 880 has two stars in Jack Lyons and Cameron Millard, both veterans, both placed in the recent meet with distinction. The recent 880 record is 1:58.2, and something around 2:08, and Millard was close behind.

NO MILERS

The miles, which up to graduation time was the ray of hope for the Wilshire institution, has been sold to the Dons. Klein, under-educated by Plate Poly last year, left school a few weeks ago.

Bishop, who also made a letter in the chest-grinding event, and was considered a good miler, is ineligible because of studies. Tommy Seward, who has always run both men a sharp race, should have completed the squad, but is ineligible.

Kirkpatrick is putting all his time on Cuthbert, Sweeny and Morin now. It is improbable that any of them can carry a great amount of excitement this year.

The field events are also decently represented. Capt. Julian Cain is back for the high jump. Cain topped the heights in the city meet last year, and should clear over the 6.10 mark this year. Incidentally Cain is the only veteran out for the hurdles. His best time for the 110 is 15.8, and for the 300 is 16.8. There are no other good hurdlers or high jumpers.

GOOD JUMPERS

The broad jump is more or less well taken care of. Earl Mathis has leaped twenty feet, one inch thus far. A winning gold medal in the County will be his if he can leap within a half-inch of first place in the Caltech affair. Gill and MacCoy are also good jumpers.

Tommy Milton has Hallcock, who will probably be second consistently, but the shot is without a single veteran.

"Altogether the atmosphere in sports is a dark purple color. The Pixies have given up their practice tilt with the Engineers, and will probably be smothered when they meet the U. S. C. frosh Friday.

CARD FOR MOHAN

A post card awaits Earl Mohan at the sporting department of the Times.

Wool O'West Suits Mean Wear—\$17.50

—And they mean good appearance and comfort, too, just as every boy who wears one will tell you.

—These Suits are made expressly for the Boys' Store at Bullock's, of high-grade western wool.

—The coats are sports-style, with full belt, inverted pleat in the back, and four hand-patch pockets.

Two Pairs of Knickers with Every Suit

—Each pair is fully lined, and all seams are taped and reinforced to withstand boyish activities.

—Wool o' West Suits come in sizes 7 to 17 years—\$17.50. The best proof of their value is the number of friends they make for the Boys' Store at Bullock's, Fifth Floor.

Boys' Caps in New Shades—Here at \$2.50.

POMONA NINE STARTS WORK

(EXCLUSIVE DISPATCH)
CLAREMONT, Feb. 13.—With fifteen men in suits baseball season has begun in earnest at Pomona College this week. Capt. Rud Frater, star varsity first bagger, is assuming direction of the Sagehens diamond squad and some first-class early season workouts have been staged on the Schott Field diamond since Monday. Practically all of the old stars, including six lettermen have drawn their suits and a host of new recruits are already trying out for positions and are being shifted from one job to another, giving them every opportunity to make a place on this year's varsity nine.

O'Flynn Again Beaten by Lilt in Tijuana Race

(EXCLUSIVE DISPATCH)
SAN DIEGO, Feb. 13.—Lilt, the K. L. Ross sprinter, again defeated Bill O'Flynn at Tijuana when these two class sprinters met in the feature race at six furlongs. As on the last occasion when the horses hooked up, Lilt trailed Bill O'Flynn, which led until one stride, and then up to the wire, none of which was lightly burdened with 94 pounds against 118 for her opponent.

Now it was an easy winner in the fourth, having practically no opposition. Little Clark was second and Golden Cup third. Black Shasta, an outsider, came from the rear to finish fourth. Lilt, who spent the race carried her from seventh place to win by a touch on Sunday.

Hokey, it is said, also showed a lap in yesterday's second race at six furlongs.

De Palma's mark, but the brilliant achievement of Lickleider overshadowed what a host would otherwise have been a sensation among the rail-birds.

But the auto speed kings did not completely monopolize the spotlight by any means, for Gene Walker, motor-bike champion, is declared, duplicated Lickleider's record.

For the first time that the two-wheelers have been able to even equal even De Palma's marks and Golden Cup third. Black Shasta, an outsider, came from the rear to finish fourth. Lilt, who spent the race carried her from seventh place to win by a touch on Sunday.

Headache, Earache,
Headache Gone Forever

Now time begins the human race suffered from pains of all kinds, but at last science has produced a wonderful formula which completely relieves in less than 5 minutes. This wonderful formula known as "Tynsal" is not habit forming, does not depress the heart, as do many pain products, but brings a sense of freshness instead of that out run down condition.

"Tynsal" is absolutely harmless, being prescribed by thousands of doctors. Step into your nearest drug store and get a package for a few cents. Take a couple of tablets and in 5 minutes, the aches will be gone. — (Advertisement)

stable pain from neuritis. In such cases, big or small, the best relief is often obtained by the use of Tynsal. This delightful, healing preparation relieves the pain in less than five minutes, and gradually removes the cause of the pain. — (Advertisement)

CAPT. BUTT TO HIS SISTER-
IN-LAW

(This Letter Continued From Yesterday)

Everybody is wondering why the

Corbins subscribed \$10,000 for the

General's marriage funds. Mr. Corbin

was the Editha. Patten is rich,

but not wealthy enough to throw

away \$10,000 without adequate re-

turn. Of course, Gen. Corbin has

always played high stakes and has

usually won. The General sup-

position is that Mrs. Corbin was

the Court of St. James for the

General, or even Berlin, and that

\$10,000 is a cheap price to pay for

it, but it would not be cheap if the

General had to resign from the

Army to accept it or some other

post of honor under the Taft ad-

ministration. He is drawing the

pay of a Lieutenant-General re-

tired, and there is a law that pre-

vents him from holding two offices

at the same time.

CAPITAL WATCHES

I see nothing incongruous in

putting him in the Cabinet, for he

is a very brainy man and I have

seen nothing but what was

honorable and upright in his

character. He conducted

the whole of the Spanish-American

War, and if it had gone badly for

the Army he would have been given all

the first to secure preferment in

the Army by political pull, but

since then the system is one which

will be taken into consideration

whenever an officer's figures on his

face are known to the

Pattens to subscribe the amount,

and having reached everything in

Washington worth having so

far sight for other worlds to

conquer. They are so

bitter with the General at the time

of his marriage to Editha that

none of them would speak to him.

They have learned to like him on

all occasions since and stay him on

all occasions if he stays on

the blame, yet there has always
been a desire to rob him of the
credit due him.But whatever opinions there may
be about him there is but one re-
sulting effect called the result of
"Madam is Ambitious." It
will be interesting to watch the
cards fall, and the publication of
this \$10,000 subscription of the
Corbins will cause the pack to be
more or less than that.

Well, good night, as ever,

Your affectionate brother,

ARCHIBALD.

CAPT. BUTT TO HIS SISTER-
IN-LAW

WASHINGTON, Nov. 25, 1908.

Dear Clara:

I have just come from the un-
veiling of the Sheridan statue,
having been there since half-past
two. I lunched at the White House
with Prof. Jordan, Mr. McDonald,
Donald and the sculptor, Mr.
Gutzon Borglum and myself beingdressed in velvets and furs and was
kept very warm. She kept murmuring

from time to time.

"Oh, mon Dieu, mon Dieu, fait

me mourir ce soir."

EXERCISES TIRESONE

The speech was unnecessarily
long and the President was getting
frightfully impatient when it finally
came to a close. Gen. Corbin had to
eliminate his speech altogether.Mrs. Sheridan, who looked young
and pretty enough to be the daughter
of the widow of the General, was
there dressed in a garnet cloth

gown and a hat to match. Lieut.

Sheridan pulled the string that
caused the flag to fall and there
was a shout of cheer from the family's
old comrades when he stepped on
the platform. He looks very much
like his father, which is a matter
of great delight to his family. MarySheridan, the oldest daughter, ani-
mated the party with her
gaiety and was beaming with pleasure.

Mrs. Sheridan and myself

were the only ones who

had not been

photographed a

dozen times, for they had been

with him every day for

since he had been

elected.

Refrigerators Ice Cold Food For These "Summer" Days

Cool, crisp, fresh from the refrigerator—
this is the food that tempts when the sun
sheds this summer heat! And in this
heat climate, where summer lingers
months of the year—there is no
time when a refrigerator is not an
essential part of the household equipment.

Trying to do without ice is a false economy
that only results in less appetizing meals
and wasted food. The small daily cost of
ice is easily counter-balanced by the more
delicate and more healthful food served.

125 Types of Quality Refrigerators

Barker Bros. Refrigerator Department offers
an unusually broad selection of refrigerators.
A size—style—price—for everyone.
You have only to see the display to
find the model suited to your needs. Come
in and let us show you the possibilities for
your choice.

Insulation

The crucial point in a refrigerator! The
better the insulation—the more effective
the refrigerator. Sheet cork insulation is
the highest type with granulated cork al-
most as satisfactory. The celebrated ten-
ment insulation and the less expensive six-
ment type are well known and effective.

Finish

A refrigerator case may be porcelain-
enamel or golden oak and finished
either with a one-piece porcelain
or 3-coat white enamel.

Size and Style

It is a matter of taste. Top-lift, front
slide door—in practically any size as
you but fit your needs.

Price

125 styles—125 prices—You are sure of
finding a refrigerator at the price you want
to pay. With Barker Bros.' great purchas-
ing power it is possible to offer the best
high-grade refrigerators at ex-
tremely moderate prices. The range is from
\$18.75 to \$830.00

SHIPPING BOARD WELCOMES QUIZ

Investigation Resolution
Brings Challenge

Chairman O'Connor Backs
Sale to Dollar Line

Round World Trip First
"Under Any Flag"

(BY A. P. NIGHT WIRE)

WASHINGTON, Feb. 13.—In-

vestigation of the administration of

the Shipping Board, called for in

a resolution introduced by Rep-

resentative Davis, Democrat, Tenn.

"will be welcomed by me as

above all other members of the

board," Chairman O'Connor said

today, in discussing statements

made in connection with the pro-

posed inquiry.

"We consider the records of the

board as public records," said the

chairman, "and we will be glad

to let them over whenever Con-

gress wishes."

Regarding the published report

that the seven 502-foot steamers

now under construction by the

Dollar S. S. Company brought a

statement from O'Connor

that it is a manifest perversion of

fact that it calls for prompt correc-

"The sale price of the seven

ships is \$2,850,000," he said.

Their total deadweight was 91,

72 tons, and their average gross

tonnage was 10,532.

The sale price

is \$41.12 per deadweight

ton or \$52.21 per gross ton.

"It is proper to add that the

Dollar S. S. Company has agreed

to operate these vessels on a round-

the-world service for a period of

five years, constituting not alone

the first round-the-world passenger

steamship service under the

American flag, but the only round-

the-world passenger service under

any flag."

FISHERMEN STRIKE

IN WAR OVER PRICE

(BY A. P. NIGHT WIRE)

MONTEREY, Feb. 13.—Three

hundred rock cod and mackerel

fishermen controlling about 200

fish-boat, tied up their craft

here today and struck for an in-

crease in price of 5 cents per pound

for their product. Cannon

operators who purchase fish caught

near Monterey refused to meet the

demands of the strikers, which would

increase the cost of fish ap-

proximately \$22 per boat catch.

SANTA MONICA

CLIMATE—BEAUTY—ROMANCE

The Pot of Gold

The Rainbow spans the sky, love,

Come out, come out and play—

The Pot of Gold is at its end,

With haste and we'll find it today—

The sky's the color of your eyes,

As bright as the moonlight sea—

Come out, come out, come out, love,

To the End of the Rainbow with me!

The Pot of Gold

It points us to the Golden West,

To the Land-of-dreams-come-true;

It ends at the spot my heart loves best,

In the home I will build, love, for you;

And there we will live forever,

On the shore of the Sunset Sea—

For the Pot of Gold at the Rainbow's End,

My love, is your love for me!

Clara Greening Creager

Climate, beauty, romance—these made California. They will make Santa Monica. America sings of California. Some day it will sing of Santa Monica Bay. Swiftly the tide of time comes in—and with it comes a new era—the Santa Monica of song and romance. By land and by sea the people will come—and by air the songs will reach 'round the world.

Momentous events are occurring. The Santa Monica of song and story—of the new era—is with us. In a few years more America's heart will be in Santa Monica—it the beautiful and romantic garden of nature, on the front edge of the world's most interesting city.

Served as City Council
Time of Death

Formerly Was President
Lawyers' Society

By a "Times" Staff Correspondent

MONROVIA, Feb. 13.—John Dunn, City Surveyor of Monrovia and past president of the "Attorneys' Association of Los Angeles," died at his home in Duarte, near Monrovia, this morning. He was 41 years of age. He came after several weeks and was a member of the community, where he was well known. Mr. Dunn was the son of Mr. and Mrs. John P. Dunn, who are now State Controllers and public life and politics were a part of his life. He was a member of the Knights of Columbus and Kappa Alpha Psi Fraternity. He has lived here since 1911 and is the owner of a ranch that he and his wife, Mrs. Dorothy Dunn, have since 1911. From 1908 to 1910 Mr. Dunn was owner and manager of the Myrtle Hardware Co. He took over his son's business in 1911. When he moved into legal partnership, he took his office in the Los Angeles Exchange Building with Mr. Lewis, Lewis, Suter and Fink, who were his law partners. He was elected City Surveyor of Monrovia in 1915, a position he held until his death. He was on several occasions a member of the legislative assembly in his home town. Arrangements have been made for the funeral, which is expected, however, to be in private.

ACCUSED POISONER

OF DOGS UNDER

By a "Times" Staff Correspondent

VENICE, Feb. 13.—D. V. Trick, 44, Marine Plaza, accused poisoner, is on liberty under bond. The names of his present neighbors, Troutick, are being withheld in the courtroom. He is to appear Friday. Troutick is said to have secured the police to help him and Clegg, his attorney, served on the police station was told the number of animal lovers who missed pets which were found dead from poison.

ANGELFIRE RUN DOW

AND HURT A1 DUE

By a "Times" Staff Correspondent

BURBANK, Feb. 13.—After Angelfire, a hospital, recovering from a stroke, he is said to have stepped in front of a automobile on the boulevard to die. Dr. E. E. Strickland asserted to have been the doctor on that which struck him, and defense declares that Los Angeles police, who suddenly stepped from the front of the machine, was broken.

UNITED OIL BONDS

The United Oil Company is offering \$1,000,000 7 per cent first mortgage five-year convertible gold bonds at 100 and interest to yield 7 per cent. The bonds are convertible into oil stock beginning February 1, 1924, to January 31, 1925, at \$20 a share; from February 1, 1925, to January 31, 1927, at \$32.50 per share; from February 1, 1927, to January 31, 1929, at \$45 per share, and from February 1, 1929, to January 31, 1931, at \$40 per share.

The United Oil Company recently acquired the entire capital stock of the Richfield Oil Company to form a combination for the production and the distribution of oil and its products. The Richfield Oil Company is producing more than 10,000 barrels of crude oil daily in the Signal Hill and Midway fields, while the Richfield buys from other

CAMPAIGN FOR NEW LISTINGS

Stock Exchange Head Favors Liberal Expansion

Local Investment Banker is Honored by I.B.A.

United Oil Bonds Offered; Business News

Persistent efforts to surpass the 1923 record of thirty-one new listings on the Los Angeles Stock Exchange are being made by the members of the upper chamber of President Frank H. Pettingill Corporation, operating in the industrial, oil, mining and banking fields which have stock in the open market and a reputable representative of the exchange with explanations of the advantages of the organized market and the desirability of listing in Los Angeles, the known secondary markets in the country, and a primary distribution center of growing importance.

The board of governors has not voted a special fund with which to pursue a listing campaign, Mr. Pettingill said yesterday, but is doing all it can to support and obtain results. He said that a recent report from San Francisco that both the stock exchange and the stock and bond exchange of New York had added California Petroleum and Ventura Consolidated, both local corporations.

In anticipation of an active mining campaign in the new months, the exchange is looking to add reputable mining stocks to its list. The nationally known copper stocks of Arizona, some of which are in the same region as the local exchange, are considered especially desirable because of the large number of copper investors in this city. The exchange, however, has a group containing only one copper stock per year. This year, Richfield Consolidated, operating in the Coeur d'Alene district of Idaho, is the only one to be listed.

Engage in the safe deposit business, either by operating safe deposit facilities directly or by owning stock in a company, which carries on this service.

Make the circulation of false reports about banks a Federal offense.

Redeem notes when secured by personal bonds in excess of the present 10 per cent limitation.

Other amendments contained in the bill are aimed at dispensing with unnecessary red tape in bank operations and at reducing expenses.

NEW TRUST COMPANY

Announcements of the promotion or accomplishment of new banks in Los Angeles follow in no claim to the opportunity for such financial institutions developed, that the public accepts them as regular order of business, but more than ordinary care is taken to assure the assurance that the Bankers' Trust Company of California will soon open its doors to the public.

The new institution is organized by a group of bankers, business and professional men, to meet the banking needs of Los Angeles and the Pacific Coast.

The president of the Trust Company is Stanley McIntosh, formerly with the Second National Bank, and now a resident of this city.

According to Mr. McIntosh, the men back the new banking institution include Fred W. Atkinson, Charles E. Babbitt, T. J. W. Babbitt, Philip L. Lindsey, Paul Pauls, C. A. Smalley, M. D. H. A. Wilson, Erwin W. Widney, Henry D. Meyer, Montaville Flowers and David E. Hunter.

The group officers for California are Charles R. Blyth, chairman of Blyth, Witter & Co. San Francisco; Benjamin H. Babbitt, president of E. H. Rollin & Sons, San Francisco; G. C. Stephens, secretary-treasurer of Stephens & Co., San Francisco; Fred Shingle of Shingle, Brown & Co., San Francisco; George Scott of Brown & Goodwin & Tucker, Inc., San Francisco; J. W. Edmiston, William Staats Co., San Francisco; J. W. Harrison, Anglo-London Corp., San Francisco; Charles Mitchell, Mitchell, Robert H. Moulton, R. H. Moulton & Co., Los Angeles; James R. Page, Stevens, Page & Sterling, Los Angeles; Robert E. Hunter, Hunter & Dulin & Co., Los Angeles; Thomas W. Banks, Banks, Huntley & Co., Los Angeles; James S. Riley, Riley & Thomas, Los Angeles.

BOND COMMITTEE

Official announcement by President John W. Prentiss of the Investment Bankers' Association of America, naming the bond committee for 1924 were Robert H. Moulton of R. H. Moulton & Co. a place on the municipal committee. He was also chosen a member of the board of governors for the annual convention set late last year.

The group officers for California

are Charles R. Blyth, chairman of Blyth, Witter & Co. San Francisco; Benjamin H. Babbitt, president of E. H. Rollin & Sons, San Francisco; G. C. Stephens, secretary-treasurer of Stephens & Co., San Francisco; Fred Shingle of Shingle, Brown & Co., San Francisco; George Scott of Brown & Goodwin & Tucker, Inc., San Francisco; J. W. Edmiston, William Staats Co., San Francisco; J. W. Harrison, Anglo-London Corp., San Francisco; Charles Mitchell, Mitchell, Robert H. Moulton, R. H. Moulton & Co., Los Angeles; James R. Page, Stevens, Page & Sterling, Los Angeles; James S. Riley, Riley & Thomas, Los Angeles.

NEW BOND COMMITTEE

T. Fenton Knight, dealer in investment securities in Pasadena, announces the organization of the firm of Knight, Stetson & Lester, Inc., to continue the bond investment business established by Mr. Knight over 20 years ago.

The firm of the late G. H. Stetson of the John B. Stetson Company of Philadelphia, who will be actively associated in the business, is the new partner.

Mr. Stetson, a member of the New York bar, formerly associated with the law firm of Simpson, Thatcher & Bartlett of New York City, who will be the director, and Mr. Knight, associated with his brother, John Knight, in Los Angeles for several years, was the managing officer of the bond department of the Security Trust and Savings Bank in Pasadena.

SALES TROPHY

The Woodhill-Hulse Electric Company, Inc., of the East Third Street, won third place in volume in 1923 among all distributors of Eureka vacuum cleaners, it was announced yesterday at the annual meeting of the E. R. Harvey, F. C. Doyle, Paul Andrus, R. H. Moulton and Verne Morrill from Detroit, where the annual Eureka convention was conducted. They went as guests of the company and brought back a trophy.

DAILY TRADE TALK

Move to Modernize National Banking Laws; New Trust Company Announced; Stock Values Increase

A move to modernize the national banking laws with the view of lifting the handicaps under which the banks of the country labor will be made shortly in Congress by Representative Louis T. McFadden of Pennsylvania, chairman of the House Banking and Currency Committee, announced in the current number of the Journal of the American Bankers' Association. Mr. McFadden states he will press for the early passage of a bill to modernize the banking laws now governing the operation of over \$300 billion Federally chartered bank.

Solution of the long-protracted controversy over branch banking is aimed at in the McFadden bill by amending the existing law to permit the opening of a branch bank in the same city as the parent bank.

Don't envy
the banks

Banking on the whole is a
money making enterprise.

A good bank never speculates,
and yet you may have envied
a bank's profit, and then done
yourself what a good bank
never does.

May we modestly suggest the
investment of your earnings in
Municipal Bonds, especially of
the conservative type which
this concern has exclusively
handled since its inception.

Consultation is free and at
your convenience.

Oregon Irrigation Laws are Good Laws --

Good, in fact, that other states have used
them as a pattern.

Based originally on the California law, they have
incorporated a number of distinctive features
that make them generally accepted as the best
from the investor's point of view.

They are a direct obligation of the community
which issues them. They are supported by full
power of the municipality. They empower
the State to pay interest for five years.

We will be glad to go over with you the com-
munity points of superiority in the Oregon law.
You may obtain well illustrated, descriptive fold-
ers on several Oregon Irrigation Bond issues that
you prefer, by filling out the enclosed coupon.

BOND QUOTATIONS

Selling Pressure

(BY A. F. NIGHT WIRE)
NEW YORK, Feb. 13.—Dom-
inated by the influence of the new
\$150,000,000 Japanese loan, the
bond market today was forced
lower. The liquidation of many
bonds for the purpose of "switch-
ing" operations. General selling
of securities was reported for a
transfer of funds into the Japanese
bonds.

Considerable activity in existing
Japanese issues developed on an
announcement that 4 1/4% due next
year would be called at next
month.

While general selling, there
were conspicuous strong spots in
the speculative railroad line.

As a result of Washington de-
velopments, attacks were renewed
on the Consolidated Oil is-
sues. The 7s losing more than 2
points. California Petroleum Gas
6 1/2% also yielded part of its
previous gain. Further selling of
United States government issues
tended to depress the prices of
these bonds.

NEW YORK, Feb. 13.—Following are closing
quotations on bonds listed on the New York Stock
Exchange, furnished by Lopez & Bryan, 824 South
Spring street:

Dock Strike Is Bearish Factor Against Grains

BY JOHN G. HERNDON, JR.

EXCLUSIVE DISPATCH
CHICAGO, Feb. 12.—A break of 16,000 bbls of wheat occurred at the dock when the result of the strike was to be determined. The larger country offerings of wheat now had a depressing influence on the grain market. While there was considerable support around 110, there was a slight decline for the day, and when the strike was over, the market had recovered a portion of the losses. Wheat closed 10 cents lower.

Fourty cars in Liverpool closed at 110, 800 per ton, pounds, or 1/2d above the price of March wheat.

Aside from the break in Liverpool, there was little new in the wheat situation, but the technical position has been clarified as the result of the strike. The market was 10 cents lower during the day when it was reported as only natural. May went to 110 under July at one time and finished 140/40 under at 110 1/4. June, 110 1/2; and September, 110 1/2.

Small wheat offerings were 10 cents lower.

Fourty cars were in Liverpool closed at 110, 800 per ton, pounds, or 1/2d above the price of March wheat.

"A husband assigned to his wife a portion of his salary, which might thereafter become due to him from a partnership of which he was a member, together with a portion of the distributive share of the profits therefrom in consideration that she would pay all household and family expenses, and that she should have the use of the services of the wife during the life of the agreement. It was held that the amount so paid by the partnership in discharge of the obligation to his wife is taxable income to the husband and should be included by him in his income tax return."

Congress passes in 1921 an act for the promotion known as the "Small Business Act," which provides for an appropriation of money by the United States and an equal appropriation by the State for the maintenance of the services and facilities provided for in the act. One of the sections of that act provides:

"This act shall be construed as intending to secure to the various corporations of the administration of this act, and their respective States, subject to the provisions and purposes of this act."

The Bureau of Internal Revenue has accordingly held that the compensation received by the employees of the State, and the compensation received by the State, and therefore not taxable by the Federal government, but that in order that the compensation as received shall be exempt, the person regularly employed by the State agency created under the act, and the services must be continuous and not for a term or temporary.

An individual is not entitled to a deduction of substantial value to the corporation received from the stockholders of the corporation shares of stock in recognition of those services.

He contended that as he had no contract with the stock-

YOUR INCOME TAX

BY JOHN G. HERNDON, JR.

During the year 1923 the number of compensation for services were issued by the Bureau of Internal Revenue. One of the earliest of these provides that the entire amount received by a successful contestant in contests is taxable income.

A husband assigned to his wife a portion of his salary, which might thereafter become due to him from a partnership of which he was a member, together with a portion of the distributive share of the profits therefrom in consideration that she would pay all household and family expenses, and that she should have the use of the services of the wife during the life of the agreement. It was held that the amount so paid by the partnership in discharge of the obligation to his wife is taxable income to the husband and should be included by him in his income tax return.

Congress passes in 1921 an act for the promotion known as the "Small Business Act," which provides for an appropriation of money by the United States and an equal appropriation by the State for the maintenance of the services and facilities provided for in the act. One of the sections of that act provides:

"This act shall be construed as intending to secure to the various corporations of the administration of this act, and their respective States, subject to the provisions and purposes of this act."

The Bureau of Internal Revenue has accordingly held that the compensation received by the employees of the State, and the compensation received by the State, and therefore not taxable by the Federal government, but that in order that the compensation as received shall be exempt, the person regularly employed by the State agency created under the act, and the services must be continuous and not for a term or temporary.

An individual is not entitled to a deduction of substantial value to the corporation received from the stockholders of the corporation shares of stock in recognition of those services.

He contended that as he had no contract with the stock-

LOS ANGELES EXCHANGE

Bearish drives against the oil shares were successful yesterday on the Los Angeles Stock Exchange, in lower oil leaders, General Petroleum and Standard Oil of California, from 1 2/8 to 1 1/8 points. The remainder of the list yielded with the exception of the first, but losses were only fractional.

The Union Oil issues held firmly, following the publication of the earnings showing earnings of \$5.52 a share, all in 1923, in 1922, but also pointing to the recovery of inventory depreciation through the recent increases in oil and gasoline prices. Union Oil advanced 1 1/8 to 1 1/4 points, and United Oil lost 1 1/2 to 1 1/4.

United Eastern's 4-cent jump to 9 1/2 in the mining list was the only other development in that group. Telluride advanced 2 1/4 cents and Tom Reed at 4 1/2.

Activity during the bond call did not excite much beyond the ordinary interest among investors. Associated Oil, which had moved up 1 1/4 to 8 1/2, and San Joaquin series "C" of 6s of 1950 advanced the same amount to 9 1/2. Pacific Gas and Electric's 6s of 1944 up 1 1/4 to 7 1/2, and Southern California Edison's 6s of 1944 were firm at 101 3/4.

Following are the closing quotations and sales:

What Is Your Time Worth?

It is not safe to make an investment and then forget about it. Someone should give it his attention. Who?

If you decide to undertake the task yourself, you must, for it is not safe to undertake an enormous reading program, including financial and trade papers of all types. You should also study and understand earnings statements and balance sheets. Even so, what everyone knows is not news and you will only have just scratched the surface.

Granted, however, you can do all this—what is your time worth?

Moody's Investors Service can do this and much more for you at a nominal cost because of our enormous time and effort to such work and have been doing it successfully for many years for thousands of banks and individual investors.

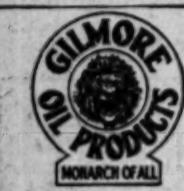

Think this over carefully. Is it worth your while to duplicate at much effort what we can provide at small cost? Let us know your answer.

UP AGAINST GUSHERS?

No, they are not up against gushers and they don't have to be, either, for at the price even a 1000-barrel well will make BIG money. When the time comes that the big gushers are "up against us" you'll be paying \$5000 an acre or more instead of \$1,000 as now. Better get at least a forty for \$40. You can't lose much and you WIN BIG if at all. These are States of New Mexico leases where 5 wells are already in the oil and with one big gusher in. Card brings map, particulars and no obligations.

Organizing a Company?

Whether your Company should be a corporation or a "common law" company; its capitalization; kind of shares, negotiations for capital, financial securities, etc., are matters concerning which organization specialists may render valuable aid. Your organization matters can be efficiently handled through this office, all legal work being supervised by an organization attorney of many years' experience. Do you need—

Capital for Financing?

My financing service is a specialized service for organizers needed to place their investment offers in the Los Angeles field only. Every new product can succeed by this or any other plan, but if your proposition is meritorious you can expect returns only when your investment offer is properly presented and "followed up" by personal salesmen.

Before organizing your company or deciding your financing plans, you are invited to consult with me personally. Many years in Los Angeles.

BY HOWARD C. KEGLEY

At 226 feet the Union Oil Company has, at present, the deepest well in Los Angeles on the Hill, indications which strongly indicate oil production, according to field experts.

Chester Brown, geologist for the Union, stated yesterday that the cores taken at that depth practically corresponded to those which were taken at somewhere near that depth in the Compton field.

The oil is reported to be clean, with gravity of the product placed at 38 degrees. Davis & McMillan, who were located on the south side of Catalina street west of Temple avenue at Long Beach, was brought in late yesterday. The well was completed at 5884 feet. The water string was completed at 7514.

"There is nothing what we will pick up in the next 100 feet in the Rosecrans well," said Mr. Davis. "We hope the drillers will find a saturated sand. Our cores are so similar to those taken at Compton that we feel decidedly optimistic concerning the outcome of the coming test.

In the opinion of Mr. Brown, the Rosecrans hole is situated on what is apparently a separate structure from that of the Compton field, although Rosecrans No. 1 is about 1000 feet northwest of the discovery well of the Compton field.

The opinion seems prevalent that the structure is not really a natural one, probably more or less contiguously to Athens than to Gardena, and apparently extends from northwest to southeast much in the same manner as the Compton field.

Union has several hundred acres under lease in the Athens district, and has contracted to complete the oil Potter Oil Company holes which it located in the area northwest of the Rosecrans, and apparently extends from northwest to southeast much in the same manner as the Compton field.

The White Star Oil and Refining Company is drilling on its new location five miles south of Murray, in King county, in the district where the Mediation Oil Company drilled to a depth of 3793 feet. The hole is in the hill. Geologists hold that the depth is on the anticline as the Coalings oil field, and the General Petroleum is going to a depth necessary to test the well fully. The California Oil Company has a well down 1000 feet in the western rim of Tulare Lake, about five miles east of the General Petroleum. The California oil company has been fenced off, barring close scrutiny of its operations.

Two new wells were added to the Torrance field's list of productive properties.

The Grunwell Oil Corporation is drilling on its new location five miles south of Murray, in King county, in the district where the Mediation Oil Company drilled to a depth of 3793 feet. The hole is in the hill. Geologists hold that the depth is on the anticline as the Coalings oil field, and the General Petroleum is going to a depth necessary to test the well fully. CARLTON GIVEN NEW SENTENCE

Convicted Slayer Also Must Serve for Burglary
Means Fifteen-Year Term Even if Paroled

Young Wife Enters Plea of Not Guilty

A second pententiary sentence was imposed on Edward H. Carlton, convicted murderer of Special Officer Robert E. Magee, who was killed during a burglary at the home of J. C. Belding, 915 Iroquois street, last November.

Judge Avery ordered Carlton sent to San Quentin for a term of five to fifteen years for burglary, the former sailor having pleaded guilty to a charge of looting the home of A. W. Coldingway, 182 South Benton Way, the night before Magee was murdered. The term also was ordered to begin at the conclusion of Carlton's previous sentence to life imprisonment for the Magee shooting.

EXPLANATION GIVEN

It was pointed out that inmates of the prison may make application for parole at the end of ten years' service of a life sentence.

The State hoped, through a consecutive sentence, to be certain that Carlton will again gain his liberty after serving his time.

Jeanne Carlton, bride of the convicted youth, also was in court yesterday. She entered a plea of not guilty to two charges but was found in with the man made co-defendant with her husband.

The trial on these charges was set by the court to begin the 25th inst. Mrs. Carlton now is in prison in the County jail awaiting her trial on her application for probation, she having pleaded guilty to a charge of manslaughter in connection with the Magee murder.

ONE CHARGE DISMISSED

Carlton also pleaded guilty to most of the charges, but, in ruling the home in which Magee was shot, but this case was dismissed on motion of the District Attorney.

He is scheduled to be taken back to San Quentin probably today, where he will begin serving the first year of a minimum term of fifteen years.

Wife Accuses Rich Mate as Heavy Drinker

Rudolph F. Vogel, reputed millionaire landowner, was sued for divorce yesterday by Mrs. Edna R. Vogel, who charged him with habitual intemperance and extreme cruelty.

According to the wife's complaint, Vogel participated in numerous carousals with his male companions, his conduct becoming such that Mrs. Vogel said she was finally compelled to leave the family residence at 427 North Vermont avenue. The separation was said to have been arranged by Mrs. Vogel when she left her husband home. Mrs. Vogel said, she took their two minor children with her.

The wife stated Vogel had an income of approximately \$4,000 a month from his business, which was valued at \$150,000, while she listed his property holdings as being worth \$150,000. The value of the home place was fixed at \$150,000. Mrs. Vogel asked reasonable alimony and the custody of the two children.

IOWANS TO PICNIC

Middle-Westerners Planning Frolic in Park

Iowans will gather at Lincoln Park on the 22nd inst., for their annual winter picnic and reunion. The date of the reunion will be postponed to March 1. All former residents and tourists from that State are invited to attend. County residents will remain open the entire day.

(Continued from First Page)

HARBOR BOARD SHOWS HAND

(Continued from First Page)

question. He stated that 400 feet of frontage was twice too big for the construction company and that the entire lease is ill-advised. Given to his remarks was given to the board.

While Commissioner Golden was again attempting to protest against the granting of the lease, Commissioner Kibbe, a member of the board, said to have been the author of the lease at the old rates and the motion was seconded by President McKee and the meeting adjourned.

(Continued from First Page)

HISTORY OF LEASE

The history of the West Basin Pan-Pacific Construction Company lease began on April 22, 1922, when that company first requested the lease after they had been ordered by the harbor commission to grant the construction company the lease at the old rates and the motion was seconded by President McKee and the meeting adjourned.

(Continued from First Page)

In defending their action, Mr. Kibbe and Mr. McKee said yesterday that the first informal action of the harbor board approving the request for the lease was in effect the same as if the lease had been officially granted and that the board would not allow the Cykler company to remain on the lease at the old rates.

(Continued from First Page)

According to records of the harbor commission the lease was not accepted by the Pan-Pacific Construction Company because of the changed rental rates, and after fifteen days, according to the rules of the harbor commission, the lease became void and no application remained before the board.

In the meantime, Cykler company continued to use the lease and continued to construct their work buildings. They also filed a protest with the harbor board.

(Continued from First Page)

In defending their action, Mr. Kibbe and Mr. McKee said yesterday that the first informal action of the harbor board approving the request for the lease was in effect the same as if the lease had been officially granted and that the board would not allow the Cykler company to remain on the lease at the old rates.

HARBOR BOARD SHOWS HAND

(Continued from First Page)

HISTORY OF LEASE

The history of the West Basin Pan-Pacific Construction Company lease began on April 22, 1922, when that company first requested the lease after they had been ordered by the harbor commission to grant the construction company the lease at the old rates and the motion was seconded by President McKee and the meeting adjourned.

(Continued from First Page)

In defending their action, Mr. Kibbe and Mr. McKee said yesterday that the first informal action of the harbor board approving the request for the lease was in effect the same as if the lease had been officially granted and that the board would not allow the Cykler company to remain on the lease at the old rates.

(Continued from First Page)

According to records of the harbor commission the lease was not accepted by the Pan-Pacific Construction Company because of the changed rental rates, and after fifteen days, according to the rules of the harbor commission, the lease became void and no application remained before the board.

(Continued from First Page)

In defending their action, Mr. Kibbe and Mr. McKee said yesterday that the first informal action of the harbor board approving the request for the lease was in effect the same as if the lease had been officially granted and that the board would not allow the Cykler company to remain on the lease at the old rates.

THE LONG WATCH
This blend of the Owl and the Sun sounds like going into continuous or an ex-tension of day and night banking.

THE OUTCAST
Alexander Howat must be highly popular if he is not permitted entrance to any meeting of a mine workers' union.

THE NEW SOUTH
Henry Ford is going to build a \$10,000,000 plant in Texas for the production of his wares. The Texans are becoming so used to Henry's bugs that they will walk right up to one and tickle it in the sides.

RAMING THE LIMIT
The California Limited has been running in three sections every day for two months and it is suggested that the House pass a constitutional amendment creating the California Unlimited. How does our distinguished railway impresario, William Gibbs McAdoo, stand upon this proposition?

NO SUCH ANIMAL
The head of the American Bar Association says it is time we had an intelligent bloc in Congress—which is a way a lawyer might have of being facetious. There is no more chance of developing such a group at Washington than there is of Burbank's creating a violet-scented saloon.

NAME OF ART
There are a lot of picture magazines published in Europe that circulate in this country. The pictures are frequently of a character that would not be endured as the output of an American publisher, but are suffered to get by as examples of foreign art. There is no disposition to be censorious, but the alien artist or writer should have no privilege or latitude beyond the home talent.

ON THE DEAD
The last thing is a flying hearse for aerial funerals. When they have funerals by plane there will be no halting of parades by reason of a traffic jam. Among other mortuary advances there is also the musical hearse, which has been put into service by an Italian who is known as the East Side funeral king in New York. This impressive vehicle contains a calliope with pipe-organ effects and is a boom and money-saver to a lot of folks who have been accustomed to burying their dead to the music of a brass band.

UNION TANGLES
Filipino sugar workers in Hawaii have a cabin and the leaders are just now making fresh demands upon the industry. They want double pay for overtime, but, more than anything else, they demand a discontinuance of the custom of paying a bonus for long and faithful service. The industrialists are likely to think more of the employer than of the union under this system and the bosses would never consent to anything of this kind. They might consent to the payment of a bonus to every worker, but that special recognition should be given for fidelity, zeal or ability is contrary to old-time union principles.

DREAM OF FAIR WOMEN
Nothing could be more delightful than the quest of a gifted artist for beautiful women. When the painter seeks inspiration for his brush the trail naturally takes him to Los Angeles. The Vienna artist who has been commissioned to paint portraits of fifteen beautiful women of America can fill his portfolio in Southern California. All the fairest daughters of the graces may not live here, but those who do not are passing through. If they are not here today they will be tomorrow. We like our women to match our scenery, which ranges from the dainty and colorful beauty of a perfumed garden to the rugged magnificence of the Sierras.

MORE CARS COMING
Some years ago wise ones prophesied that the United States would soon reach the saturation point in the matter of automobiles. That this prophecy was without foundation is shown by the report of executives of the various manufacturing companies. They plan to build 5,000,000 new cars the coming year, making an increase of 20 per cent over the output of last year. At the Chicago automobile show orders were heavier than ever before and the executives assert that this indicates an increased buying interest throughout the United States.

This announcement should serve as a warning to those who fondly look to heaven for a solution of the Los Angeles traffic problem. Every day there are seemingly more cars thronging the downtown streets, causing a congestion without a parallel in other portions of the country. If 5,000,000 more automobiles are to be manufactured during this year it is safe to assume that a large per cent of them will be sold in California. One shudders to contemplate the picture of what the Los Angeles traffic conditions will be on thoroughfares and boulevards by the end of 1924. It will probably be quicker to walk than to ride.

“TANING THE SHIREW”
History is rapidly reverting itself in England. Half a century ago a Premier said, "The King rules but does not govern." This distinction between the powers of the King and Parliament had become axiomatic. But on Tuesday a Premier said in the House of Commons, "We shall carry on the imperial orders as read from the King's speech."

It appears that Great Britain is already a King in fact as well as in name. Royalty is not going into the discard without making a fight for its life.

On the day when the Labor party came into power The Times said editorially, "The Labor party has captured the government, but the crown has captured the Labor party." This prediction appears to be fully confirmed by the developments of the last month.

London cables announced on Tuesday that an insurrection is already brewing in Parliament, with the object of overturning the present Labor Cabinet. But it is not a Conservative revolt. The Labor government, according to one of the Labor members of the House of Commons, "has become more conservative than the King." And the incitement to revolt is coming from the Communist wing of the Labor party.

The radicals are disgusted to find that conservative policies continue to be carried out; and, what is worse, they are carried out by a Labor Cabinet. They had expected the recognition of Russia to be followed by the adoption of at least a weak imitation of Communism in the British government; but they have learned to their discomfiture the truth of the French political axiom, "The more things change the more they are the same."

Perhaps the European countries will begin to say of England as Sterne said of the neighbor across the channel, "They order these things better in France." The struggle between classes caused a revolution in France, in Russia and in Germany. England had one revolution a few centuries ago, when it beheaded its King, and later, in a spirit of remorse, erected a statue in Trafalgar Square to perpetuate his memory. Since that period there has been no revolution in England. The ounce of prevention is always administered in time. The object lesson which the radicals are receiving may have a salutary effect. The Labor leaders are giving their own testimony to the effect that, while the present system may have its disadvantages, it must be continued, for the alternatives proposed would wreck both the government and industry.

Macdonald has not made the mistake of Lenin, who declared open war on capitalism. Lenin won an easy victory; but the day after the people began to starve, and are still starving. In his speech in Parliament on Tuesday Macdonald pointed with pride to the fact that gilt-edged securities have improved since the advent of the Labor government. This is a good example of a truth that gives a false impression.

Gilt-edged securities fall sharply, as well as the exchange value of the pound sterling, when it became apparent that the Labor party would succeed to power; and they have not since recovered half the loss. But the important part is that the Labor Cabinet has extended the olive branch to capital, begs it to stay in England and assures it that it will not be persecuted or outlawed. The hopeless radicals are even more dismasted than before the Labor party came into power; but the moderate radicals are content. The danger of a class revolution in England has been averted, and, by measures that none but an Anglo-Saxon people would have been courageous enough to adopt.

“BAYONETS MAKE POOR PICKS”
France's occupation of the Ruhr is beginning to bear a fruit that is not at all savory to the French taxpayer. The government, under pressure, has announced an increase of 20 per cent in the annual tax levy.

During the three and one half years between the signing of the Treaty of Versailles and the French occupation of the Ruhr Germany paid to France more than \$2,000,000,000 in money and commodities. When France began to make enforced collections the voluntary payments stopped.

Occupation of the Ruhr was easy, for Germany was unarmed and defenseless. But exploitation of the Ruhr was a vastly different proposition. The French attempted to operate the Ruhr industries and failed. The government took the coal that was already mined; but it cost the French more to get coal from the pits than the selling price. A balance of the ledger leaves a deficit for the year in the Ruhr venture of at least \$150,000,000. This must be paid by the French themselves in taxes.

“THE \$1,000,000,000 ANNUAL IN MONEY AND KIND”
The \$1,000,000,000 annually in money and kind that France was getting from Germany was not forthcoming. This entailed more tax payments and more borrowing. In addition, the depreciation of the French franc during the last twelve months represents a loss to the government of nearly \$2,000,000.

Some drastic action is necessary to prevent governmental and economical bankruptcy. Poincaré's government recognizes this, and the increase in the annual tax levy is one of the measures planned to save the financial situation.

France's only satisfaction is that, whatever she is suffering, she has made her enemy suffer more. Possibly a majority of the French people, excepting the children, are willing to subsidize one square meal a day so long as they know that the enemy on the other side of the Rhine isn't getting one square meal in two days. But the situation is one that cannot endure.

At present there is comparatively no unemployment in France. But the depreciation of the franc has so cut into the pay envelope that those engaged in industry are not getting a living wage. There was an early depression in Germany during the early days of the depreciation of the mark. The unemployment began when the industries were no longer able to buy raw materials from the outside. France is faced by a similar dilemma.

The French government has come to the partition of the ways. If the Ruhr is to become productive again it must be operated by Germans. The German industrialists have signed a tentative agreement under which they have undertaken operation under French control. Under this contract they are to deliver to the French government an amount of material that averages nearly 20 per cent of the total production. This agreement has been in force for two months. But it is not producing more than one-third the expected revenue. The cost

of production is so high that the goods cannot meet competition in the world markets.

France must either turn the Ruhr back to Germany under the conditions outlined in the Versailles Treaty or she must abandon hope of reparations. Occupation of the Ruhr means at least temporary security for France; but it threatens to entail bankruptcy. The prongs on either horn of the dilemma are as sharp as razor blades.

It is obvious that permanent adjustment can only be brought about by international agreement. France has found the warning of Lloyd George that she would find "bayonets make poor picks" was well founded.

INCORRECT ADDRESSES

Nothing is simpler than to address an envelope correctly. Perhaps the very ease with which it is done defeats its object. For the number of letters that go into mail boxes, incorrectly or insufficiently addressed, is incredibly large.

So prevalent is this negligence that the Postoffice Department suffers an annual loss from this cause amounting in round numbers to \$1,740,000. In addition to this millions of dollars are lost to private business and to private industry for the want of ordinary care in addressing mail matter. The nation is thus paying a heavy toll for mistakes in most part preventable.

In order to save this waste, to protect the taxpayer (on whom it finally falls) and to turn these lost millions into profitable channels the Postmaster-General has designated the week of February 18 to 25 as better-mailing week.

During this week it is hoped every correspondent will watch his hand when it comes to addressing envelopes and packages and so start a habit that will last throughout the year.

At the present time the cost of "directory service" is an expensive addition to the Postoffice Department. It is estimated that 200,000,000 pieces of mail are thus handled annually, which means that postal employees must be taken from their regular work in an endeavor to correct the errors of the general public. In New York City alone the cost of this service approximates \$500 daily.

Postoffice experts have done some extraordinary feats in deciphering difficult addresses and in discovering the thought behind half-expressed directions. But it is very unfair to place this additional burden on the shoulders of our faithful servants or to expect that the carelessness of the individual should be converted into a permanent public tax.

At one time, indeed, a proposal was made to Congress to place a charge against every letter that needed directory service. A far better remedy can be found in the determination of the public to reduce this extra service to a reasonable minimum. A campaign, therefore, with this object in view is the latest suggestion from postal heads.

Mail inadequately addressed, even when eventually delivered, involves a delay that may bring cash losses to some and heavy heartaches to others. Who knows but that a friendly relationship may be broken through a carelessly addressed envelope? There are unexpected tragedies on the envelope no less than in the contents of a letter.

The number of misives that have to be returned to sender for a new address are provocative of losses of time and money to everyone concerned; for want of a return address nearly 20,000,000 of these are sent annually to the dead-letter office. And there the loss is complete to the sender, the receiver and the hands through which they passed.

Directory and dead-letter service are costly to the Postoffice Department; delay and non-delivery are just as costly to the mailer and the mailee. This is a good time for everybody to get together and cut these unnecessary losses.

St. Valentine's Day

[Protected by George Matthew Adams]

HOW IT STARTED

BY JEAN NEWTON

Valentine Day

St. Valentine's Day, one of the most popular days of the year with lovers, takes its name from several of the early Christian martyrs, whose "Day," according to the Acta Sanctorum, was long observed on February 14.

No connection can be found, however, between the saint and the custom of exchanging love missives. This is said rather to be a survival of the lovers' festival observed by the Romans at their Lupercalia on February 14. This was a ceremony in which the priests made a circuit of the Palatine Hill striking with goat-skin thongs at all the women they met "to insure fertility."

The early English custom was to place the names of young men and women in a box and draw them out in pairs on St. Valentine's Day, whose names were drawn together had to exchange presents and be each other's Valentine throughout the ensuing year. Subsequently only the men made presents.

TWO MINUTES OF OPTIMISM

BY HERMAN J. STICK

The way in which the States one after another keep on declaring for Coolidge threatens to take all the excitement out of the contest next November.

The old gentleman who was mugged on a safety isle at Sixth and Alvarado last week still hopes to reach home in time for next Sunday's dinner.

The umbrella supposed to have been used by King Tut has been found in his tomb. The family must have expected the old man would meet up with quite a shower.

We note that the Chinese rebels of New York the other day made violent protest against printing.

A committee of European experts has actually agreed on something.

Correct this sentence: The rush

on umbrellas in the Los Angeles stores has nearly depleted the stocks at present on hand.

Forger, working nine and a half hours, put out \$1800 worth of bad paper in a day. The paper-hangman's union will be after that.

Forger, working nine and a half hours, put out \$1800 worth of bad paper in a day. The paper-hangman's union will be after that.

G CHIPS

WHITAKER
ing both belts and suspenders.
But without complete confidence.

William, by the way, raised an
host of spontaneous laughter
when he read the verdict of a
dence of some 1,000 select cit-
teranean fellow who had offered to
sell William his status for \$100.
William himself looked ap-
prised. Both he and his wife
posed that was an exclusively male
cultural joke.

In January, 1824, the London Of-
ficer stated editorially that
the taste for specialities
has almost banished the im-
mature drama from our stage.

In 1827 John Sturge, Millwright,
is still declining, owing to the pa-
ularity of periodical publications.

And Lord Byron, who described
a year or two earlier, was as
sarcastic about the dubious mor-
tality of the "new" made his
shudder.

So civilization has been living
for, lo, these 100 years at least.

An artist-lecturer is depicting
our indifference to beauty, per-
haps we deserve it. But, merely
we are also quite pleasantly
different to ugliness.

I am not considered a senti-
mental person. But last week, before
I could get to work on my pro-
fessional duties, I was seized by
an imperative impulse to write to
tell a dear couple I knew that I
loved them. Hadn't seen them for
quite a while, but could not get
them out of my head or my heart.
Until I had written that little love
note.

And on the self-same day some
friend was having exactly the
same happy impulse toward
himself. We had lost touch for
than a year. But, she said, as
just had to write to me before he
could settle down to work. Her
dear little note was so sweet
like the one I had written my
friends that I almost snatched
it out of her hands. But, she
was just a delightful colleague.

And I found I was sentiment-
al enough to be very happy that some
thing else was circulating her
money.

An enterprising stationer
me a sample of letter paper and
envelopes used by our very
secure social leader. It was
plain, inexpensive, unostentatious
and practical.

The firm also inclosed me
samples of those used by a fairly
known picture actress. Very
pensive, ornate, impressive.

One rather noticed that
comparison between the price
of Christmas cards received recently.

the time he was up in York
recruiting the Hudson River Dragoons.

The newspaper reported of
history hawkers in New York
luckiest, for he merely
wrote: "Such and so happened
such and so. (He said it to me
I wrote it down.) If John Doe re-
ally said it (as is sometimes
case) he should have no cause
complain; but after the
around John's head he usually
clares he never said it and no
with half a heart he can't say
it.

Solution there only can be
Printing will get out except
market reports and dry-goods
verbalisms; that is, we shall
pense with subjects altogether
even a thesis on two and
makes four.

For now all the world and
brother are at it, pulling, tugging
and, what is worse, pulling
still worse, writing, and let
idea be raised and there are
999 contrary ideas raised again.

I once knew a man that had
left the State because he was
tired of the tax on cats. And he
who wrote that there should be
tax on dogs was manhandled
cat fanciers.

Oh, Printed Word, wary you are
in such a pickle!

He answers not, poor fellow,
verily I believe he is afraid to
answer.

A Millionaire's Home
"Beg pardon, sir," said the
"but how did you order
eggs?"

Medium."

"The new cook has boiled
hard, sir."

"I prefer 'em that way,"—
Ville Courier-Journal.

CHEER!

We know the man by the song
sings.

Or the word he ever lets fall
that unfolds in the heat
Or the flower he picks by
wall.

We know the man by the
smile he shows by
the streets

And the light that plays in
the eye.

We hear his words and we
hiss him well.

As his accents roll and we
spell

On the heart of a passing love.

The heart that's had the best
that's been in his world.

Lift up at his cheer
The fierce dispute in the
crowd stilled when his
head.

As he casts his sight and mind
on the future's vista is a gilded span of hopes fulfilled.

Especially if your purse be modest, is this said to you! For nowhere else
can little income buy you more than here. And here the small and cozy
people live here by the score; not because they're wealthy but
because their tastes are ours, because they crave our kind and climate. Not
discriminating folk are wealthy. Little homes are myriad here.

If you have even a modest stake or income—and seek a wondrous
little world where California's as it used to be, write for our booklet. We've
got a thing to sell—but many interesting things to tell. Write today.

For the Valentine Party

Roses are red and violets are blue,
Sugar is sweet and so is—

this sweetest Valentine of all—"Ice Cream Hearts." The Valentine Sweet that is different, for your party. Easy to make, and the family would enjoy it for a Valentine dessert.

BISHOP'S

COCOA

Gives the rich chocolate taste that most every one likes. The recipe for "Bishop's Cocoa Syrup"—soda fountain style—is on every package of Bishop Cocoa.

Valentine Ice Cream Hearts

Bake plain cake, about one inch thick, in heart-shaped tins (individual) or cut cake heart-shaped after baked. Place one piece on plate spread thick with the cream cheese, and another piece of cake on top of ice cream. Over all pour Bishop's Cocoa Syrup and place on top a red candy heart.

PORT OIL LEASE BACK IN COUNCIL

Court Action to be Urged at
Today's Session

Harbor Committee Believes
it Best Solution

Will Recommend Legal Test
of Doheny Grant

Los Angeles' own little "Tea-
pot Dome" affair, the leasing by
the Board of Harbor Commissioners
of seven acres of city-owned
Pier 1 at the harbor for thirty
years to E. L. Doheny's Pan-American
Petroleum Company, will again
come before the City Council
this morning when the Council's
Harbor Committee will recom-
mend that the City Attorney be
instructed to file in the courts at
once an action to determine if the
lease is legal.

Many Los Angeles attorneys who
have examined the records have
declared that the lease is illegal,
as, they say, the charter and ordi-
nance expressly prohibit the city
from leasing Pier 1 to any private
person or corporation.

MAYOR URGES ACTION
Mayor Cryer has recommended
to the Council that as the legal-
ity of the lease has been ques-
tioned, that the city proceed to
institute proceedings that will place
the entire matter before the courts,
and City Attorney Stephens, before
he left for Washington, also recom-
mended that this course be pursued.

It is expected that the lease will
be defended by the courts by the Doheny
interests, as since the legal-
ity of the lease has been ques-
tioned, former State Court
Judge Charles Wellborn, whom the
Mayor and Councilmen believe rep-
resent the Pan-American Petro-
leum Company, has been actively
watching events at the City Hall.
Former Judge Wellborn talked with
Mayor Cryer yesterday afternoon
about the Doheny lease of Pier 1 for an oil
lease, and the Mayor said that he told
the Mayor that he (Wellborn) was not
paid by the job but received an
annual retainer.

COMMITTEE REPORT
The harbor committee's report
which will be read to the Council
this morning, which probably
will be adopted, was signed by
President Workman, chairman, and
Councilman Musket, and was as
follows:

"In the matter of the message
from the Board of Harbor Commissioners
granting an oil lease to the Pan-American
Petroleum Company by the Board of Harbor Commissioners, which,
together with the communication
from the City Attorney, affecting
the same subject matter, is referred
to this committee for attention.

"We herewith report that in our
opinion the action that can be
taken in the premises in view
of the Mayor's message, and the
communication received from the
Municipal League reciting that the
only question which they raise is
one, here one, is to refer the matter
to the City Attorney for attention.

"We therefore recommend that the
City Attorney be referred to the
City Attorney, with instructions
to bring such legal action as
may be necessary to have his mat-
ter thoroughly threshed out and
a judicial decision secured
thereon.

President Workman and Council-
man Musket said that the public
is entitled to the facts about the
Doheny lease of Pier 1 and
that the place for an airing of
the matter was the courts, as the
entire question was whether or not
the lease is legal.

**LICKLEY STARTS
ON NEW WORK AS
DRY PROSECUTOR**

Dr. Ernest J. Lickley, who re-
signed his position as assistant super-
intendent of city schools last year after a bitter controversy
growing out of charges against him
by other school officials, yesterday
assumed his new duties as deputy
City Prosecutor in Police Judge Sheldon's court.

He will aid in the prosecution of
Wigt Act cases which are han-
dled exclusively in Judge Sheldon's court.

**GLENDALE CHILD DEAD;
TRUCK DRIVER IS HELD**

RAMONA AMEY, 8, KILLED ON
WAY HOME FROM
SCHOOL

Ramona Amey, 8 years of age,
of 615 Fairmont avenue, Glendale,
was killed yesterday by an
automobile truck on her way
home from Cass Verdugo
school. Hayes Benton, of 111
South Beaudry street, driver of the
truck, was arrested, and was placed in the County Jail by
Deputy Sheriffs Modle, Dewar and
Cattin, on suspicion of manslaughter.

The accident took place on Central
avenue, Glendale. The truck was
owned by the Relman Electric
Company, of Glendale. The child
was a passenger in the truck.

The child's body is at Scooter
undertaking rooms, Glendale.

AUTOIST WINS VERDICT

Woman Awarded Damages in Suit
for Injuries in Crash

A jury in Judge McClellan's court
yesterday awarded a verdict of
\$15,000 to Miss Edna Kelly in her
suit for damages against the Dodge
Transportation Company. In her
complaint, Miss Kelly asserted she
was injured when an automobile
in which she was riding collided
with a truck, said to have been
owned by the defendant. Miss
Kelly said she was thrown through
the windshield of the car in which
she was a passenger and that her
face was cut and scarred.

Guarding Your Teeth

Health, in a large measure,
depends upon the kind of care
you give your teeth. Possible
infection can easily arise
through neglect. Fifteen
years of successful practice
of a large clientele places
me in a position to diagnose
your case scientifically and
correctly.

Former students of Huntington
Hall and pupils of Miss Florence
House, now dead, are to meet Sat-
urday at 2:30 p.m. at the home of
Mrs. Louise W. Watkins, 205 South
First street, Alhambra.

Their object is to found a
scholarship in memory of
Mrs. Watkins, a member of
the school. Huntington Hall School
was broken up after Miss House's
death.

**GOLD TEETH DIES,
DISCIPLE OF WHITES**

FAMOUS NAVAJO INDIAN RE-
FUSES TRIBE CUSTOMS AS
END NEARS

EXCLUSIVE DISPATCH
HOLBROOK (Ariz.) Feb. 12.—
Gold Teeth, a Navajo Indian of
progressive character, has beaten
the age-old customs of his people.
His name came from his patron,
a white dentist years ago
when he learned the tribal
rites with much beating of tom-
toms and singing of ritualistic
chants. There also was consider-
ation of the manner in which his
effects should be destroyed, as is
the Navajo custom, that they might
accompany him to the happy
hunting grounds.

Even the house is committed to
the flames, though this sometimes
does not happen when the patient
is carried outside. Gold
Teeth sent the medicine man
to write the will that gave his property to his
wife and children and then directed
payment of debts in Holbrook and Winslow and provided for a white
man's funeral. Then he passed to
his fathers.

It's made from
taste-tested
cream

Golden State quality safe-guards begin with double-sterilizing of the dairyman's cream cans—and continue throughout the churning and packing process.

For example, an expert tastes every can of cream as it is received—and other experts sample-test it in the laboratory.

Just another reason why Golden State has been the quality standard for 17 years.

Ask your grocer. You'll find it pays to insist!

good milk
for everything

VERY often a woman will use Borden's Evaporated Milk for one recipe which has been recommended to her, or which she has proved out to her own satisfaction.

She will go out of her way to buy a can of Borden's whenever she wants to make up that particular recipe.

If you have tried Borden's Evaporated Milk in one recipe and found it to your liking, why not try it for other milk dishes, too? It's just pure milk—but richer than ordinary milk because some water has been evaporated out of it. Use it diluted half and half whenever the recipe calls for milk.

SOCIETY

BY CORA YOUNG

The second of a series of three dances given during the season by the Dinner Club will take place in the main room at the Biltmore Hotel on the evening of the 22nd inst., and will be a large and fashionable event.

Patronesses will include Mmes. Andrew Baldwin, Roy Bayly, Ernest Duque, Paul Hammond, Eugene Hawkins, Jr., Van Buren Jarvis, James G. Scarborough, Jr., Edwin Stanton and Dwight Whiting.

Dinner Dance

Complimenting Miss Cecile McLaughlin and Mr. Richard Tracy St. John, whose betrothal was announced at the Bells Chico Gun Club last Sunday, had a Mr. Louis Schenck entertained on Tuesday evening with a delightful dinner dance for the younger set. Fifty guests enjoyed the happy occasion, and the valentine motif was used in the elaborate decorations.

Dinner Party

Mr. and Mrs. Edwin Gill and Mr. and Mrs. Howard B. Reticker are entertaining with a dinner party tonight at the formal opening of the new ballroom at the Ambassador. The fifty-five guests will be seated at one large table,

With Cards

Among the many affairs

planned for next week will be the card party with which Mrs. Ocasio-Carbo, Wallerbois of 912 South Western avenue, is entertaining at the Mary Louise in West Seventh street, Thursday afternoon, the 21st inst.

Delightful Trip

Miss Mary Paul, who has just returned from Honolulu, is giving a beautifully arranged bridge party tomorrow evening at her home in Laurel Canyon in honor of Mr. and Mrs. George E. Scherzer. There are to be thirty-five guests and decorations will be suggestive of the valentine season.

Luncheon Party

Invitations have been issued by

Mrs. Benjamin Franklin Perkins of the Biltmore, for a luncheon at the Jonathan Club Saturday afternoon. This is the second of a series of similar affairs which Mrs. Perkins is planning for this spring.

Evening of Bridge

Miss Mary Paul, who has just returned from Honolulu, is giving a beautifully arranged bridge party tomorrow evening at her home in Laurel Canyon in honor of Mr. and Mrs. George E. Scherzer. There are to be thirty-five guests and decorations will be suggestive of the valentine season.

At Home

Mrs. Willoughby Rodman, who returned recently from an extended tour abroad, will be domiciled indefinitely in the home of the

James K. Gregory's, 2607 South

Reid on West Seventh street. The tables and rooms were charmingly decorated with bouquets of old-fashioned flowers.

Today the sorority will give a "rush" party for the spring semester last Sunday evening. It took the form of a tea and was a delightful event.

The second "rush" affair was on

the evening of Lincoln's birthday, and was an old-fashioned supper party at the home of Miss Miriam

Orchard avenue. Mrs. Rodman is being entertained by her friends

—

Valentine Night

Tuesday evening was Valentine Night in the Cocoanut Grove.

The grove was decked with all sorts of novelties and the table favors were dainty valentines while flying monkeys and a balloon shower made this an enjoyable evening.

Among those who entertained were: Mr. Leach Cross, party of four; Mr. C. W. Williams, party of four; Mr. L. K. Brown, party of nine; Mrs. Church Thompson, party of ten; Mr. H. C. Brooks; Mr. S. M. Stowell, party of nine; Mr. C. W. Thompson, party of six; Mr. Jack Hirsh and party; Mr. Thomas J. Coleman, party of six; Mrs. Eugenia Zellerbach, party of four; Mr. B. B. Gardner; Mr. H. Kendricks, party of eight.

Wednesday

Evening

At THE home of Miss Harriet

Eugenie Andrews on South

Virgil street the Phi Delta Pi

Sorority, University of California,

Southern Branch, gave its first

"rush" party for the spring semester last Sunday evening. It took the form of a tea and was a delightful event.

The second "rush" affair was on

the evening of Lincoln's birthday, and was an old-fashioned supper party at the home of Miss Miriam

Orchard avenue. Mrs. Rodman is being entertained by her friends

—

Valentine Night

This evening will witness the

opening of the beautiful new

Fiesta hall room at the Ambassador with a Valentine party at which a number of well-known society ladies are entertaining

with large parties.

The old ball room has been

transformed into one of the most

modern rooms in the West for

social entertainments. William H. Voolett, architect.

The Fiesta all room is a combination of the early Chinese art as shown in their potteries, merged with the more modern atmosphere of Rustic art. The great Grecian columns with beautiful modeled apes are utilized to give height to the room, the columns at the west end being surmounted with great oblong vases. The decorations also is borrowed from antique Chinese potteries, the leading colors being Obergreens, green and gold, mellowed to a cheerful effect.

Another added attraction, the

entire Mission Play Company, with

its singers, dancers and Spanish

orchestra, has been obtained

through the courtesy of John

Stevens McGroarty.

Among the reservations already re-

ceived are: Dr. W. E. Baisinger;

Irving Hellman, party of six; Mr.

Frederick Cummer, party of sev-

enteen; Mr. Alon Wayne; Mr. R.

Malone; Mr. H. E. Parker, party

of five; Mr. G. G. Gillette, party

of eight; Mr. Jack Hirsh; Mr. Char-

les Hutchinson; Mr. S. L. Lipman;

Mr. Charles H. Thompson;

Mr. Cheever, party of eight; Mr.

A. S. Givens, party of six; Mr. Joel

Engel; Mrs. T. Edwin Gill, party

of forty.

Smart Affairs

Mrs. Milton Straus will give a

luncheon at the Ambassador Monday

evening.

Mr. Edmund Mitchell enter-

tained with a dinner party for

four at the Ambassador Monday

evening.

World Tour

Mrs. A. C. Foster, president of

the Juvenile Protective Associa-

tion, was the complimented guest

at the Ambassador Monday

evening.

Mrs. Leach Cross, the

hostess for the

luncheon, will give an

outline of her present trip and

the interesting places she has

visited during the six months of

her absence. The luncheon table

was exquisite with its huge basket

of spring flowers. Covers were laid

for seventeen.

Smart Luncheon

Mrs. A. E. Twohy entertained

at a delightful luncheon in the

Hotel Ambassador on Monday

evening.

Aunt Mrs. C. W. Walton of Bu-

nuque, Iowa, who is visiting her

sons in Los Angeles. The lun-

cheon table was lovely with

tiny green buttons and bands of

cream flannel are used in trim-

ming a flock of cream flannel.

Plaids are used on each side of

the skirt of a hand-drawn flock

CHINA IS POTENTIAL GIANT

Educational Leader from Orient Says Relation of America to Far East Is of Vital Import

"I believe that on the relationship of China and America depends more the future trend of the world's civilization than on any other single fact that faces us today."

This statement was made by Dr. H. V. Luce, president of the University of Pekin in an address to the students of the University of Southern California at a special assembly held in Bovard Auditorium yesterday morning. His subject was "America, China and Progress."

"China has made as much progress in the last decade as any other nation has in like period of time," Mr. Luce continued. "In America, we measure our progress by our mechanical feats, but in China this is not the case."

STRONG MORAL FIBER

"Their desire for learning is hardly less than that of any other nation. China is the strongest of all non-Christian nations. With her wealth in soil, with her industrious class of laborers, and with her strong moral fiber, China is potentially the strongest nation in the world."

In summing up his statements, Dr. Luce brought out four points: first, that China has put aside her ancient system of education and now has more than 500,000 students in modern schools ranging from the kindergarten to the university; second, that she has put aside her ancient method of government and has established a republic as quickly as anyone who was acquainted with the conditions of the vast population could expect; third, that she has carried through her opium reform in a most effectual manner and in a comparative short length of time; and fourth, that she no longer turns her face toward the West, but now is looking toward the future.

IN CHINA SINCE 1897

Dr. Luce was graduated from Yale in the class of '92. He went to China in 1897 and since then

has been connected with higher educational work there. He spent three years in the province of Chantung before he became the secretary of the China Education Association at Shanghai. For the past four years, he has been the vice-president of the University of Pekin, and has been instrumental in the organization and the classification of all the Christian educational work in North China, and is located at the political, literary and student center of a quarter of all of the human race.

TRAINING CAMP PLANS LAID

Maj. Thomas F. Cooke Appointed Los Angeles County Representative for Military Program

Capt. H. L. Suydam, civilian aide to the Secretary of War for the State of California, has appointed county representatives to arrange the encampments under auspices of the Military Training Camps Association of the United States. Maj. Thomas F. Cooke of the Pacific Southwest Trust and Savings Bank has been made the Los Angeles county representative. Inquiries may be addressed to him or to Col. E. V. Smith, Infantry, United States Army, chief of staff, Ninety-first Division, Presidio of San Francisco.

There will be 700 students accepted for the Del Monte Camp and forty for the Ft. Winfield Scott Camp. The training period at each will be from June 26 to July 25. Last year, Los Angeles County furnished one-third of the students at the Del Monte camp.

SEEK YOUNG MEN

Each county representative is appointing committees to bring the matter to the attention of all young men between the ages of 17 and 24. An announcement is made by Capt. Suydam explaining the purposes of the work as follows:

"The purpose of these camps is to bring together young men of high type from all sections of the country, and then to develop their national and social unity; to teach the privileges, duties and responsibilities of American citizenship; to inculcate self-discipline and obedience, and to develop the physical standards of American youth through participation in military exercises, athletic games, and sports conducted by expert directors. Officers in charge of the camps are selected from the experience, sympathy and character. Medical attendance and chaplains will be in regular attendance at the camps to safeguard the students at all times."

EXPENSES PAID

The benefits derived from attendance at these camps are secured without expense to the students. The War Department will supply the rail and transportation to and from the camps, reimbursement for actual expenditures for meals en route not to exceed \$2 per day, board, lodging, medical attendance, uniforms, equipment, laundry (for clothing issued at camp) and amusements in the form of athletic games, musical and social entertainments.

For purposes, each requiring thirty days for completion, will be given as follows: The Basic course for those having no previous military experience; the Red course, the White course and the Blue course, each being an advanced course over the one preceding. Upon completion of the Blue course, the candidate is qualified and entitled to take an examination for commission as a second lieutenant in the organized reserves, should he so desire. Attendance at these camps is voluntary and the applicant is required to become a member of any unit of the Army of the United States unless he desires to take the Blue course."

TOTS' FATE HINGES ON LOVE NOTE

"Darling Boy" Missive is Center of Court Fight Over Two Children

Mrs. Gertrude P. Messenger yesterday was accused of the authorship of the "My Own Darling Boy" letter which has been occupying the attention of Judge Shaw in Superior Court in an endeavor to decide who should have the custody of the two minor children of Oscar L. Messenger and his wife. The District Attorney's office now has been asked by the court to prosecute Mrs. Messenger on a charge of perjury.

Messenger asked the court for the custody of his children pending the trial of his suit for divorce, asserting their mother was not up to care for them. His charge was based on a letter addressed to "My Own Darling Boy" and signed "Your Little True Baby." Oscar A. Howell was named by Mrs. Messenger as the author of the letter, but she had written the letter to Howell. Judge Shaw, however, had Mrs. Messenger write the contents of the letter in his presence and found the handwriting of the two declarants that she was the author of the original.

The latter contained a declaration of love on the part of the author for Howell.

ROBBERY OF HOME REPORTED TO POLICE

Foster R. King of 1126 Douglas street reported to the police yesterday that burglars got jewelry and money from his home and \$300 from his residence Tuesday night. Entrance was gained through a second-story window, Mr. King stated. The police obtained finger prints on the window ledge as a clue.

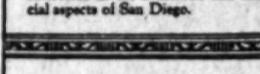

DE MOLAY CONVENTION

The Order of De Molay, a fraternal organization for young men between 16 and 21 years of age, sponsored by Masonic bodies, will hold its first State convention at San Francisco March 15. The convention will be under the direction of the State Chapter, De Molay Chapters of California. Kenneth Biggart, president of the association, will preside.

She's Fifty if she is a day —her skin shows it"

"DON'T tell me she is only thirty-five—with that skin!"
Don't let them so misjudge your age.

Age shows quickened in the skin.
All dermatologists, all skin specialists, will tell you that.

Gray hair is not the sign, for thousands of young women have gray hair.

Age is belied both ways most frequently by the condition of the skin. For thousands at fifty with smooth, soft, supple skin, look thirty-five.

There's a way to keep a youthful-looking skin, or win it back if not too long neglected.

That way is Espey's Cream—for forty-six years the most effective.

The formula, discovered in 1877, includes ten rare ingredients—all used in different ways by beauty specialists everywhere. The basic is glycerine, refined by a special process to complete efficiency.

ESPEY'S CREAM

For sale at drug and department stores.

The skin loses oils in washing. Soaps leave irritation. Wind, water and sun dry and crack and burn the skin. Dust, dirt and germs infect the pores.

Espey's replaces the lost lubrication, soothes the irritation, removes the chaps, helps to clean the pores, takes the tan and burn and heals the translucent outer skin.

This is your possibility as it has been the achievement of many that sell other women who had old-looking skin.

We know it, so we offer you a 10-day bottle free to try at our expense.

Our booklet "True Beauty," which tells more about your skin comes with the bottle. Mail the coupon now if you would try this method and learn how to train your skin.

J. E. Espey Company, Dept. 1K,
Pasadena, California.

Please mail free bottle of Espey's Cream
for a 10-day test without any obligation
in my get. Also your free book "True
Beauty," which tells about the skin.

Beware the Cough or Cold That Hangs on

Chronic coughs and persistent colds lead to frequent hospitalization. You can stop them now with Cremosilin, an emulsified creosote that is pleasant to take. Cremosilin is a new medical discovery with a wonderful ability to soothe and heals the inflamed membranes and kills the germs.

Of all known drugs creosote is recognized by the medical profession as the greatest single agency for the treatment of chronic coughs and colds and other forms of throat and nose trouble. Cremosilin contains in addition to creosote, other healing elements which soothe and heal the membranes and stop irritation and inflammation. While the creosote goes on to the stomach, it is absorbed into the blood, attaching itself to the trouble and destroying the germs that lead to consumption.

Cremosilin is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis, fits of coughing, fits of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money returned if any cough or cold fails to master how long standing, is not relieved after taking according to directions. Ask your druggist for Cremosilin. Co., Atlanta, Ga. [Advertisement]

ASPIRIN

Say "Bayer" - Genuine

Colds

Genuine "Bayer Tablets of Aspirin" have been proved safe by millions and prescribed by physicians over twenty-three years for Colds and grippe misery. Handy boxes of twelve tablets cost only few cents at any drug store. Each package contains proven directions for Colds and tells how to prepare an Aspirin gargle for sore throat and tonsillitis. —[Advertisement]

Louis B. Clark

—(Photo by Hartman)
Los Angeles.—"Before my retirement I was for 22 years a druggist and during that period sold many thousand bottles of Dr. Pierce's remedies. I could always feel perfectly safe in recommending a medicine put up by Dr. Pierce of Buffalo, N. Y., and it is a pleasure for me to state that during all the years I sold medicine I never had a single complaint regarding Dr. Pierce's remedies, but have had hundreds of people tell me how much good they have derived from them. I had and still have so much confidence in these medicines that when I need a tonic I take the 'Golden Medical Discovery' which clears my system of all unfavorable symptoms giving me a tone and feeling of perfect health."

"When my bowels and liver become a bit sluggish I take one of Dr. Pierce's Pleasant Pellets, for there nothing I know of that will so gently and thoroughly relieve the body of digestive disturbances."—Louis B. Clark, 1011 E. 29th St.

Write Dr. Pierce, President, Invalids' Hotel, Buffalo, N. Y., for free medical advice, or send 10¢ for trial pkg. of any of his remedies. —[Advertisement]

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must feel young in your liver and bowels—there's no need of having a shallow complexion—dark ripples under your eyes—pimples—a billion look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets are substitutes for calomel, and are as effective in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15¢ and 30¢. —[Advertisement]

GIRL IN JAIL CAN'T SPEND HER RICHES

Sudden Wealth of Heiress Locked Up for One Year, Presents Difficulties

If one must figure ways and means to spend \$5,000,000 from behind jail bars, then an unexpected fortune presents difficulties.

Ramona von Gradenigo, held in the County Jail, occurs in this. Her plans for disposing of the fortune she is expecting from an old Italian estate are many and varied, but all difficult of attainment from her prison.

"I'm not going to know I have it, but how am I going to do the things I want to with it?" she asked yesterday. "In here I can't even protect myself from real estate salesmen and people who want to marry me."

There is no distinction in her statement as to which class was the most bothersome. Inquiries at the jail door, however, showed that a throng of visitors had asked to see the countess.

For a few days ago she said, she received from her attorney's word of an estate valued at more than \$22,000,000 in which she is to share a fourth part. It was left by a great-grandfather, a Doge of Venice.

She plans to spend her share of the fortune with a liberal hand. Herself an inmate for a year of a penal institution, she proposes to lessen the number of girls caught every year in the state of the law.

The exact method she has not worked out. Several plans have presented themselves, but she has not yet made a choice.

One plan, toward which the young heiress leans, involves the purchase of an island. The island will be founded a home for girls, a place of luxury and cleanliness and honest atmosphere. Dis-

ciplinary measures and rules by which the girls shall be kept happy in the course of their imprisonment, the greatest difficulties at the present time, according to her story yesterday. She plans several conferences in the future with authorities on the problem which she hopes to solve.

"I only hope I can do some good," she says. "When my time in here is up, just watch me go. I'm going to have a good time for myself, then furnish others."

"Marriage? I should say not."

HARRY WILSON NEW WAMPAS PRESIDENT

Harry Wilson, director of publicity for Principal Pictures Corporation, was unanimously elected president of the Western Motion Picture Advertisers, better known as the Wampas, at the annual meeting of the picture publicists. He succeeds Joe Jackson of Goldwyn. Roy Miller of the California Theater was elected vice-president. Thomas Engle of Hamilton-White was chosen secretary and Adam Hull Shirk of Grand Asher Films was made treasurer. The following were chosen as the board of directors: George G. Hoyt, Paul Smith, Ray Lask, Joe Jackson and Erich Reeve. The old officers will continue until the annual installation which will take place at an early date.

POLICE SEEK DRIVER WHO HURT T. C. BULL

Efforts are being made by police to learn the identity of a tortoise who failed to stop after his driver had struck and injured T. C. Bull, 423 South Grand avenue, at the intersection of Sixth and Figueroa streets yesterday morning. Mr. Bull was unconscious for several minutes.

He was taken to the hospital and attended for injuries to his head and hip. No witness has been found who obtained the license number of the automobile.

Motorcycle officers from Central Station were called to patrol highways into the city in search of him.

Officers Platt and Boras of the Van Nuys division police took up the chase and notified Central police station the bandit car was headed toward Los Angeles.

The officers found blood between the oil stains and the place where the bandit car was parked.

They also found the overall jumper which the bandit wore during the hold-up.
